

COVID-19 Pandemic

Community Impact

(March 15-September 15, 2020)

1,646 people received
107,383 home-delivered meals.

4,555 clients statewide
received Home Care
Coordination through EIM.

958 people were new
to Meals on Wheels.

1,039 inquiries were
addressed through our
Community Health Line.

784 pounds of pet food
were distributed to
Meals on Wheels clients.

93 Education Center classes
and Healthy Living for ME
workshops were presented
online, engaging 298 people.

46 volunteers assisted with
Meals on Wheels, 27 of which
were new volunteers.

385 clients received
Medicare enrollment advice.

3 volunteers helped with
friendly check-in calls
to clients.

1,060 clients received
Atypical Services support
(emergency response
systems, respite support,
environmental modification,
or assistive technology).

150 caregivers received
support.

In the six months since the coronavirus hit Maine, SeniorsPlus has maintained its services while responding to heightened demand.

To accommodate the needs of the newly homebound and other clients, SeniorsPlus expanded its services, often in innovative ways through technology and the kindness of others, including volunteers and neighboring businesses. We are grateful for the ongoing support as we all work together to make life better for our community, now and going forward.

**A donation
to help us meet
the increased
community need
is much appreciated.**
